

NARENDRA AKULA

+91 8125822329| narendraroyal567@gmail.com

CAREER SUMMARY

Highly motivated employee with desire to take on new challenges. Strong work ethic, adaptability, and exceptional interpersonal skills. Adapt at working effectively unsupervised and quickly mastering new skills.

EDUCATION AND CERTIFICATION

Bachelor’s Degree | Vellore Institute of Technology, Chennai

B. Tech in Electronics and Communication Engineering — 2021–2025 - **CGPA: 8.48 / 10.00**

Class XII | Narayana Junior College, Andhra Pradesh — 2021 - **Score: 90.5%**

Class X | Sri Chaitanya School, Andhra Pradesh — 2019 -**GPA: 9.8 / 10**

TECHNICAL SKILLS

- Programming Languages:** Java, Python, C, C#
- Web Development:** HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB
- Frameworks & Libraries:** MERN Stack, Bootstrap, Selenium WebDriver, TestNG, Cucumber (BDD)
- Database Management:** MySQL, MongoDB
- Cloud & DevOps:** AWS Cloud Practitioner (EC2, S3), Git, GitHub, CI/CD pipelines
- Testing & Automation:** Postman, RestAssured, API Automation, JUnit
- Developer Tools:** NetBeans, Jupyter Notebook, Google Colab, VS Code
- Concepts:** Data Structures and Algorithms, Operating Systems, DBMS, Agile Methodologies

EXPERIENCE

AWS Cloud Practitioner Trainee - May 2025 – Jul 2025

Learned core AWS services including EC2, S3, IAM, and CloudWatch.

Gained hands-on experience in deploying and managing cloud infrastructure.

Completed foundational modules aligned with AWS Cloud Practitioner certification.

MERN Full Stack Development Trainee Aug 2023 – Nov 2023

Built full-stack applications using MongoDB, Express.js, React.js, and Node.js.

Implemented user authentication, RESTful APIs, and responsive UI designs.

Collaborated on team projects simulating real-world development workflows.

Cognizant Technology Solutions - QA & Engineering Intern — Apr 2025 – Jul 2025

Built automation frameworks using Selenium, TestNG, and Cucumber (BDD) to improve test coverage.

Performed API testing with Postman and RestAssured, validating 50+ endpoints.

Worked in Agile teams using JIRA for sprint planning and bug tracking.

Implemented data-driven testing with Apache POI, reducing manual effort.

PROJECTS

Feature Classification using CNN Ghost Modules

Built a CNN model using Ghost modules to classify fruit diseases with over 90% accuracy, leveraging image datasets and transfer learning. Deployed the model via Flask for real-time mobile predictions to assist farmers in early disease detection

Brain Stroke Detection using Machine Learning

Developed a machine learning model to predict brain stroke risk using patient health data, applying preprocessing, feature selection, and classification algorithms. Visualized insights with Matplotlib to support early diagnosis and medical decision-making.

Skin Cancer Detection using Deep Learning

Built a deep learning model using EfficientNet to classify skin cancer types from dermoscopic images with over 92% accuracy. Deployed the system via Streamlit for real-time web-based diagnosis, aiding dermatologists in early detection.

ACHIEVEMENTS

- Solved 600+ Data Structures and Algorithms problems across platforms including LeetCode, HackerRank, demonstrating strong problem-solving and coding proficiency.
- Achieved a Top 15% global ranking on LeetCode, consistently solving medium and hard-level challenges.
- Earned multiple badges and certifications on HackerRank in domains like Java, Python, and SQL, showcasing versatility across backend and scripting languages.
- Contributed to open source through Hackathons in 2023 and 2024 in more than 15 projects.

CLUBS AND ACTIVITIES

Active Member of Red Cross Club, VIT Chennai — Organized blood donation drives and health awareness campaigns, showcasing leadership and community engagement.

Andhra Pradesh State-Level Swimmer — Represented the state in competitive swimming events, demonstrating discipline, endurance, and commitment to excellence.
